

Helping you become energy efficient

WHO WE ARE

G.E.I.S., Green Energy Integrated Solutions is a company specialized in turnkey renewable energy services, established in France in 2012.

We deliver integrated solutions ranging from Design, Engineering, Procurement, Installation and After-sales to the Residential, Commercial, Tourism and Industrial markets.

Our Geothermal Cooling & Heating Systems, Solar Thermal Water Heaters and Solar Lighting Systems are based on field proven **high performance technologies in Europe and the U.S.**

OUR MISSION

Our mission is to meet the growing energy demand and face the shortage of fossil energy resources in the **MENA region** by helping our clients to:

- **Achieve optimum Green Energy solutions** in construction projects;
- **Become more energy efficient** through **streamlining, sustainability and energy savings**;
- **Reduce dependence** on fossil energy sources;
- **Enjoy an enhanced quality of life** as a result of utilizing **environmentally-friendly energy**.

OUR VISION

Our vision is to:

- Facilitate access to renewable energy and **eco-efficiency services**;
- Raise **awareness** of sustainable energy;
- **Reinforce social responsibility and promote the image** of our clients as a result of shifting towards energy efficient resources.

G.E.I.S HAND-IN-HAND WITH YOU

FROM THE DESIGN TO AFTER-SALES SERVICES

1

Front End Engineering & Consulting:

Energy analysis of green energy alternative systems vs. traditional systems

2

Detailed Engineering:

Using specialized software to identify the best green energy solutions

3

Procurement & Logistics:

Selection of equipment according to data analysis and specific needs of clients

G.E.I.S HAND-IN-HAND WITH YOU

FROM THE DESIGN TO AFTER-SALES SERVICES

4

Construction & Installation:

Installation of equipment according to the design specifications, standards and the selected green energy alternative

5

Commissioning & Start-up:

Achieving design objectives and efficient start-up of equipment

6

Maintenance & After-sales services:

Maintenance for all installed equipment and recommended spare parts

PARTNERS AND APPLICATIONS

- **Geothermal Cooling & Heating Systems**

G.E.I.S “Geothermal Systems” are produced in collaboration with our partner **ClimateMaster, Inc.** - “Headquartered in the US” **the world’s largest and most progressive manufacturer** - providing Residential and Commercial Geothermal Heating and Cooling Systems.

- **Solar Thermal Water Heaters & Hot Water Production Systems**

G.E.I.S “Solar Thermal Systems” are delivered in with **unique European expertise** in Solar Water Heater Packs.

OUR CLIENTS

Residential

We care about your well-being comfort, your long term **optimized energy efficiency and cost effectiveness** for you and your family.

We contribute to **the growth leverage and green empowerment** of your residential complex.

Commercial

We apply **tested and proven technologies** that will reduce your fixed and operational energy costs resulting in enhancing your contribution towards a better environment.

OUR CLIENTS

Tourism

We help you develop a **smarter green attitude** towards your guests which will support the **LEED** (Leadership in Energy & Environmental Design) certification process.

Industrial

We help you better manage **your energy costs and carbon footprint** as well as promote your **corporate image**.
